1 Opening

This is an agreement between Omnitype and the Licensee (License holder). By purchasing, or downloading, or installing, or using, or otherwise handling digital typeface software (hereafter “font(s)”) by Omnitype, the Licensee automatically accepts the terms of this agreement and acknowledges understanding and complying with its terms. • The Licensee is not purchasing the copyright to the design or any other part of the fonts, but the right to use the font(s) as specified in this agreement, according to the Licensee’s specified license type(s). • All uses of the font(s) not specified in the license purchased and referenced on the Licensee’s invoice, require a separate license.

2 Desktop License

This license grants the right to install the font(s) on a given number of work-stations. The number of work-stations onto which the Licensee may install the font(s) depends on the license purchased and referenced on the Licensee’s invoice. If the number of work-stations increases, the license must be updated. In the case of the closure or merging of business entities, the license and the fonts cannot be transferred. • All licensed work-stations must legally belong to one business entity. If the business entity employs any third parties or self-employed or temporarily-employed freelancers, a separate license is necessary for those parties, unless otherwise stated on the Licensee’s invoice. • The font(s) are provided in OTF format and may be used offline only. The Licensee

can make security copies of the font(s) as long as they remain inaccessible to external parties. • When embedded in production files, a copy of the font(s) may be shared with prepress and printing entities. If any of these external entities manipulate texts using font(s) by Omnitype, an individual license is necessary for those parties. • The font(s) may be embedded into public PDF files as vector outlines. • Print-font(s) must not be used to generate web-font(s).

3 Web License

This license grants the right to use the font(s) on a given number of web domains. The number of websites onto which the Licensee may install the font(s), and the number of visitors these website(s) may serve, is dependent on the license purchased and referenced on the Licensee’s invoice. In the case of an increase in visitor numbers, the license must be updated on an annual basis. In the case of the closure of a website, the font(s) and/or the license to use the fonts cannot be transferred. • The font(s) for a web license are provided in WOFF and woff2 formats and must be self-hosted on the Licensee’s server(s). • Web-fonts have to be acquired as such and cannot be generated from print-fonts or other files. They cannot be used for any purpose other than that defined by the license.

4 App License

This license grants the right to embed the font(s) in a single app, that is specified on the license purchased and referenced on the Licensee’s invoice.

Additionally, with “App” or “Application” is meant: native app, web app, hybrid app, running on mobile or stationary devices, for example personal computers, smart phones, entertainment systems, game consoles, medical instruments, etc. A single App Font Licence covers Applications that are functionally equivalent across multiple platforms and operating systems. ● Licences are calculated according to the cumulative number of downloads of the specified App from different download platforms, and this amount is stated on the license purchased and referenced on the Licensee’s invoice. If the volume of downloads increases, the license must be updated. In the case of the closure or merging of business entities, the license and the fonts cannot be transferred. ● The font(s) are provided in OTF format, upon request, TTF files can be delivered after the purchase. The Licensee can make security copies of the font(s) as long as they remain inaccessible to external parties. ● App-font(s) must not be used to generate web-font(s). ● This license does not cover video games executable on game consoles, desktop, and laptop computers.

The combined amount of followers the social media channels may reach, is dependent on the license purchased and referenced on the Licensee’s invoice. ● In the case of an increase in the number of followers, the license must be updated on an annual basis. In the case of the closure of any of the social media channels under control of the Licensee, the font(s) and/or the license to use the fonts cannot be transferred. ● The Social Media License is an extension of a pre-existing Desktop License, which must be purchased in advance or simultaneously.
